

For portable equipment

## Head phone amplifier IC AN7535NSA

### Overview

The AN7535NSA is an audio signal processing IC in which line amplifier and beep circuit are built-in in a head phone amplifier for portable equipment. As the head phone output circuit has adopted the Center Amplifier System which needs no coupling capacitor, it is the most suitable for streamlining audio-circuit.

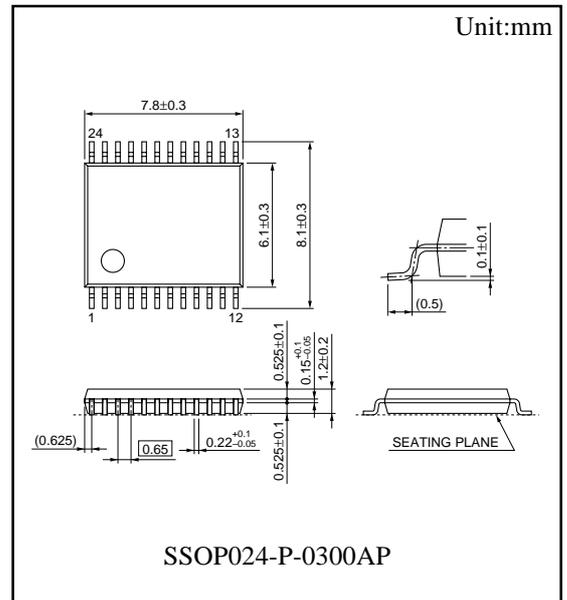

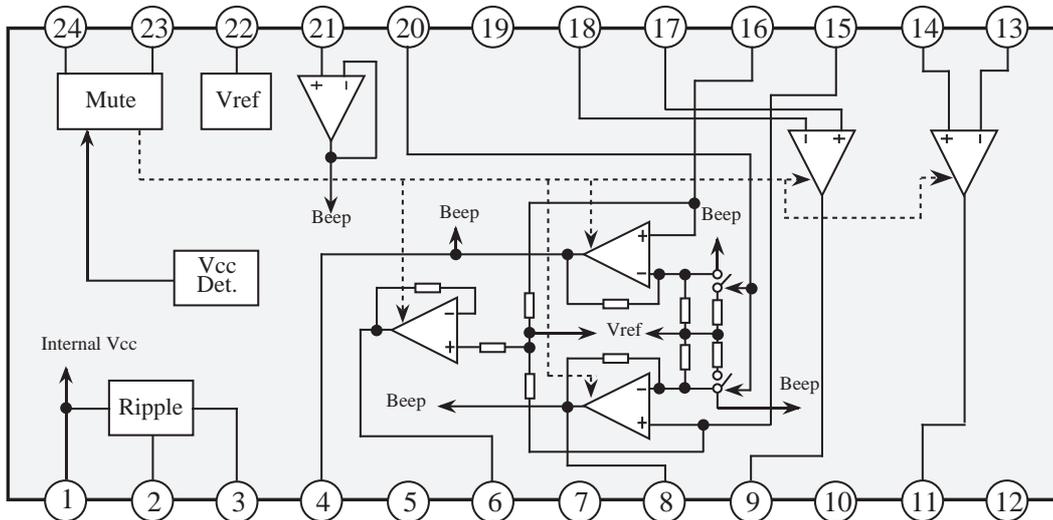

### Features

- The output coupling capacitor useless. (Center Amplifier System)
- Built-in line amplifier.
- Built-in head phone amplifier gain switch circuit.(8dB/12dB)
- Built-in mute circuit .
- Built-in beep circuit.
- Built-in power outage shock sound countermeasure circuit.

### Applications

- CD,MD,Portable audio equipment.

## ■ Absolute Maximum Ratings

| Parameter                     | Symbol                                  | Rating      | Unit | Note |
|-------------------------------|---|-------------|------|------|
| Storage temperature           | T <sub>stg</sub>                        | -55 to +125 | °C   | 1    |
| Operating ambient temperature | T <sub>opr</sub>                        | -20 to +75  | °C   | 1    |
| Supply voltage                | V <sub>cc,LineVcc</sub>                 | 7           | V    |      |
| Supply current                | I <sub>cc</sub><br>Line I <sub>cc</sub> | 200<br>20   | mA   |      |
| Power dissipation             | PD                                      | 370         | mW   | 2    |

Note 1) T<sub>a</sub>=25°C except storage temperature and operating ambient temperature.

Note 2) PD is T<sub>a</sub>=75°C, When mounted onto the glass epoxy PCB(50mm×50mm×0.8mm).

## ■ Recommended Operating Range

|                                |                          |              |
|--------------------------------|--------------------------|--------------|
| Operating supply voltage range | V <sub>cc,Line Vcc</sub> | 1.8V to 3.4V |
|--------------------------------|--------------------------|--------------|

## ■ Electrical Characteristics(V<sub>cc</sub>=2.6V,Line V<sub>cc</sub>=2.8V,T<sub>a</sub>=25°C±2°C unless otherwise specified.)

| Parameter                 | Symbol             | Condition   | min  | typ  | max  | Unit              | Note |
|---------------------------|--------------------|---|------|------|------|-------------------|------|
| Quiescent current (1)     | IC <sub>Qm</sub>   | Mute ON   | 0.7  | 1.55 | 3.0  | mA                |      |
