## DS96172/DS96174 RS-485/RS-422 Quad Differential Line Drivers

#### **General Description**

The DS96172 and DS96174 are high speed quad differential line drivers designed to meet EIA Standard RS-485. The devices have TRI-STATE® outputs and are optimized for balanced multipoint data bus transmission at rates up to 10 Mbps. The drivers have wide positive and negative common mode range for multipoint applications in noisy environments. Positive and negative current-limiting is provided which protects the drivers from line fault conditions over a +12V to -7.0V common mode range. A thermal shutdown feature is also provided and occurs at junction temperature of approximately 160°C. The DS96172 features an active high and active low Enable, common to all four drivers. The DS96174 features separate active high Enables for each driver pair. Compatible RS-485 receivers, transceivers, and repeaters are also offered to provide optimum bus performance. The respective device types are DS96173, DS96175, DS96176 AND DS96177.

#### **Features**

- Meets EIA Standard RS-485 and RS-422A
- Monotonic differential output switching
- Transmission rate to 10 Mbs
- TRI-STATE outputs
- Designed for multipoint bus transmission
- Common mode output voltage range: -7V to +12V
- Operates from single +5V supply
- Thermal shutdown protection
- DS96172/DS96174 are lead and function compatible with the SN75172/75174 or the AM26LS31/MC3487 respectively

### **Connection Diagrams**

#### Absolute Maximum Ratings (Note 1)

If Military/Aerospace specified devices are required, please contact the National Semiconductor Sales Office/Distributors for availability and specifications.

·····, ···,	
Storage Temperature Range Ceramic DIP	-65°C to +175°C
Molded DIP	-65°C to +150°C
Operating Temperature Range	0°C to +70°C
Lead Temperature Ceramic DIP (soldering, 60 sec.) Molded DIP (soldering, 10 sec.)	300°C 265°C
Supply Voltage	7V
Enable Input Voltage	5.5V
Maximum Power Dissipation*	25°C
J-Cavity Package	1.74W
N-Molded Package	1.98W
*Derate cavity package 14 mW/°C above 25°C; d	erate molded DIP package

# Recommended Operating Conditions

	Min	Тур	Max	Units
Supply Voltage (V <sub>CC</sub> )	4.75	5	5.25	v
Common Mode Output				
Voltage (V <sub>OC</sub> )	-7		+ 12	v
Output Current HIGH (I <sub>OH</sub> )			-60	mA
Output Current LOW (I <sub>OL</sub> )			60	mA
Operating Temperature (T <sub>A</sub> )	0	25	70	°C

\*Derate cavity package 14 mW/\*C above 25°C; derate molded DIP package 16 mW/\*C above 25°C.

#### **Electrical Characteristics**

over recommended temperature and supply voltage ranges, unless otherwise specified (Notes 2 and 3)

Symbol	Parameter	C	onditions	Min	Тур	Max	Unite
VIH	Input Voltage HIGH			2			V
VIL	Input Voltage LOW	_		0		0.8	v
V <sub>OH</sub>	Output Voltage HIGH	I <sub>OH</sub> = -20	mA		3.1		V
V <sub>OL</sub>	Output Voltage LOW	l <sub>OL</sub> = 20 m	A		0.8		V
VIC	Input Clamp Voltage	$l_{\rm I} = -18  {\rm m}$	A			- 1.5	V

tPLZ	Output Disable Time from Low Level	$R_L = 110\Omega$ , Figure 5		30	45	ns

Note 1: "Absolute Maximum Ratings" are those values beyond which the safety of the device cannot be guaranteed. They are not meant to imply that the devices should be operated at these limits. The tables of "Electrical Characteristics" provide conditions for actual device operation.

Note 2: Unless otherwise specified min/max limits apply across the 0°C to +70°C range for the DS96172/DS96174. All typicals are given for V<sub>CC</sub> = 5V and T<sub>A</sub> = 25°C.

Note 3: All currents into the device pins are positive; all currents out of the device pins are negative. All voltages are referenced to ground unless otherwise specified.

Note 4:  $\Delta |V_{OD}|$  and  $\Delta |V_{OC}|$  are the changes in magnitude of  $V_{OD}$  and  $V_{OC}$  respectively, that occur when the input is changed from a high level to a low level. Note 5: In EIA Standards RS-422A and RS-485,  $V_{OC}$ , which is the average of the two output voltages with respect to ground, is called output offset voltage,  $V_{OS}$ . Note 6: Only one output at a time should be shorted.
